Rear Admiral (retired) David Simpson

David Simpson has influenced U.S. National Defense and Homeland Security policy for over thirty years. He currently leads Pelorus Consulting Services, specializing in national defense, public safety, telecommunications, and Cybersecurity. He is a Professor at Virginia Tech, leading Cybersecurity Risk and Technology Leadership graduate studies for Pamplin College of Business.

He previously served as Chief of the Federal Communications Commission's Public Safety and Homeland Security Bureau from 2013 to 2017. As Bureau Chief, he oversaw public safety, emergency management, communication resiliency, cybersecurity, and disaster preparedness activities for over 30,000 commercial companies in the telecommunications sector.

Rear Admiral Simpson served in the U.S. Navy in leadership positions at sea and around the world, for over thirty years. As a Flag Officer he served as Director of Navy Networks, Vice Director of the Defense Information Systems Agency (DISA) and Director of Communications and Information Services in Iraq. He had Space, Combat Systems, and Information Technology assignments in multiple countries around the world.

He served as a senior delegate to the ITU World Radio Telecommunications Conference and to the World Conference on International Telecom (WCIT).

Rear Admiral Simpson is a graduate of the United States Naval Academy and earned a master's degree in space systems technology from the Naval Postgraduate School.

In addition to his work through Pelorus and Virginia Tech, Rear Admiral Simpson is an active author and commentator on national cyber policy. Recent coverage includes:

"*5G Factsheet for Policy Makers"* Harvard's Belfer Center (2020)
"Why 5G requires new approaches to Cybersecurity" Brookings Institute (2019)
"*Civil Ballistic Missile Warning Needs Federal Leadership"* The Hill (2018)
"Public Safety Needs a Pitcher and a Catcher" The Hill (2018)
